

MAC V-Slat Moving Floor

Is Equipped with Aggregate and Asphalt Proven Horizontal Unloading Technology with Keith Walking Floors

What does it mean to purchase a MAC Waste Trailer? It means you can increase your payload, improve safety and reduce maintenance on your trailer with the Keith Walking Floor Aggregate & Asphalt proven horizontal unloading technology.

Controlled & Safe Unloading

- Poses no risk of tipping or hitting overhead power cables.
- Unloads on uneven ground, steep grades and on banked corners.
- Metered discharge.
- Unload partial loads.

Steel V-Slat Design

- Long lasting high-wear steel flooring.
- J-Bearing provides full-length bearing support.
- Slat, bearing and sub-deck combination designed for maximum impact.

Versatile Unloading Solutions

- Unload sand, aggregate, rock and asphalt with the same trailer.
- Deliver partial loads or unload at multiple locations.
- Operates in tunnels, under bridges and overpasses.
- Superior clean-out with V-SWEEP™ means no load contamination.

Boosts Bottom Line

- More Capacity than comparably sized tipper or belt trailer.
- Increased payload means fewer trips, saving time and fuel.
- No more trailer tip overs or belt replacements.

Clean Out

KEITH V-SWEEP™ System cleans floor & walls as trailer unloads.

Safety

No tipping risk or risk of coming into contact with electrical lines.

Repair

Easy access to hydraulics; not necessary to unload to inspect or repair.

Maintenance

No daily maintenance; contains few moving parts.

Durability

Floor slats are designed to absorb wear and impact of aggregate & asphalt.

Versatility

Move diverse products in same trailer; can unload at multiple locations.

Loads & Unloads

Move load forward after partial discharge, axle load.
